How you folks come up with some of these rules is incomprehensible. No abalone hunting before 8:00 am, Really!!!! You must have nothing but divers on the board. Talk about being UNFAIR. You have taken the two lowest morning tides out of our hunt. We have been doing this for our whole lives(our group are all over 50 and in the mid 60's) with the upmost respect for the Abalone. To single us out (which we have heard you are doing) is illegal. You have not been fair. Go after those who use screwdrivers and poachers for abben not after those who follow the Law..... First you close off half of California ,(for bogus reason) then you lowered the limit, plus you keep closing more and more areas. Unrealistic and totally UNFAIR! How about we get a group together to start a petition to CUT the total number of Game Wardens in half after all, you only have half the area to patrol. Fred Meyer
