Subject: Proposed Changes for the Klamath/Trinity Rivers Salmon Fishing 2015

Dear Sirs: I and my friends have enjoyed fishing the Klamath river for Chinook salmon for the past three years and are again planning on fishing it again this year. It has come to my attention that the local tribe has proposed closing the salmon fishery from Blue Creek down. While I understand some of the reasoning behind the tribes proposal, I would really appreciate the California Fish & Game secure it's own scientific data before making such a decision that would close some of the favorite fishing holes for Fall Chinook in 2015.

Thank you for your consideration of my input.

Regards,
David Axt
