# California Fish and Game Commission Policy on Wild Pigs

*Policies are adopted by the Commission pursuant to Section 703 of the California Fish and Game Code. Policies are not statutes.*

## WILD PIGS

It is the policy of the Fish and Game Commission that:

The wild pig population of the State must be controlled to minimize the threat of increasing damage to California's native plant and animals, to agricultural operations and to park and recreational activities from the foraging habits of the animals.

Consistent with State law and regulations, the Department will prepare and recommend to the Commission regulations which enhance recreational hunting and facilitate the issuing of depredation permits and/or other legally available means to alleviate this problem.

(Amended 12/3/93)
