TITLE 14. Fish and Game Commission
Notice of Proposed Changes in Regulations

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 1050 and 2003 of the Fish and Game Code and to implement, interpret or make specific sections 711, 713, 1050 and 2003 of said Code, proposes to amend Section 230, Title 14, California Code of Regulations, relating to special provisions for black bass tournaments.

Informative Digest/Policy Statement Overview

Section 1.17, Title 14, California Code of Regulations (CCR), provides that no more than one daily bag limit of each kind of fish, amphibian, reptile, mollusk or crustacean named in these regulations may be taken or possessed by any one person unless otherwise authorized; regardless of whether they are fresh, frozen, or otherwise preserved. Current regulations (Section 5.00, Title 14, CCR) also provide specific bag limits for black bass and no provisions of any regulations exempt any participant in a black bass fishing contest (tournament) from the sport fishing regulations.

However, the Department of Fish and Game as part of Event Permit conditions for fishing contests may authorize an exemption to new regulations which impose an increased minimum size limit larger than 12 inches, a slot size limit, or a reduced bag limit less than five fish. Permit regulations also provide that “insofar as possible; all fish shall be returned to the water alive and in good condition”.

The aforementioned exemption does not provide for exceeding the daily bag and possession limit. Local and National angling organizations have requested an exemption to allow for exceeding the daily bag and possession limits for permitted contests under the provisions and conditions of contest permits. This exemption would allow permitted contests to continue a tradition of maintaining a daily bag limit of fish in a livewell while anglers continue to catch and release fish. These requests are based on the provision that all fish caught in the permitted contest will eventually be released alive, barring any unforeseen mortality.

The Department is proposing to allow anglers, authorized under an Event or Annual Black Bass Contest Permit, to continue to catch and release black bass once they reach their daily bag limit. Under the proposed regulation, once the daily bag and possession limit has been reached, each additional fish caught must immediately be returned to the water alive and in good condition, or be used to replace a fish being maintained alive and in good condition from the participant’s livewell or other suitable holding facility. Anglers will not be authorized under this proposed regulation to have more than the daily bag and possession limit in their livewell or other suitable holding facility at anytime during the permitted event.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the City Council Chambers, 301. W.
