TITLE 14. Fish and Game Commission
Notice of Proposed Changes in Regulations

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to
the authority vested by sections 202, 3003.1 and 4181 of the Fish and Game Code and to
implement, interpret or make specific sections 3003.1 and 4181, of said Code, proposes to
Amend Section 401, Title 14, California Code of Regulations, relating to Issuance of Permits to
Take Animals Causing Damage.

Informative Digest/Policy Statement Overview

In 2004, the Legislature amended Section 4181 of the Fish and Game Code and added wild
turkeys to the list of species for which the Department issues permits to landowners to kill
animals that are damaging property (Senate Bill 1153). To provide consistency with the code
change, the Department is proposing that Section 401 of Title 14, which provides for the
issuance of these permits, be amended to include wild turkeys.

Additional minor amendments are proposed, which would make this section more clear and
more consistent with current code and regulation sections. These minor amendments are as
follows:

1. Update the title and number designating the form which is used to apply for depredation
permits.

2. Change the wording in Subsection 401(a) to state that, when depredation permits are
applied for in situations where damage has not yet occurred, but damage is threatened, the
damage must be immediately threatened. This change would make the regulation more
consistent with the authorizing code section, which states that the Department shall issue
depredation permits “…upon satisfactory evidence of the damage or destruction, actual or
immediately threatened...”.

3. Delete the subsection that requires that bear traps be placed only within pens, and that signs
warning of bear traps be posted. This subsection is no longer needed, since the use of metal-
jawed traps for bears is now prohibited.

4. Change the wording in Subsection (d)(3) to require that a permittee kill depredating animals
in a humane manner, from wording that states that a permittee shall make “every effort” to kill
the animals instantly. It is unclear what “every effort” might entail.

5. Delete the requirement that squirrels and beavers be tagged when taken under depredation
permits. The Department believes that tagging each squirrel and beaver is unnecessary.

6. Add a requirement that report portions of tags issued in conjunction with depredation permits
be mailed to the Department after animals are killed. This is the procedure currently being
followed, but mailing of the report tags is not required in existing regulation wording.

7. Other minor changes are proposed for clarity.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing,
relevant to this action at a hearing to be held in the Board of Supervisors Chambers, 1050
