3. Briefly discuss any quantification issues that are relevant to a comparison of estimated costs and benefits for this regulation or alternatives: Future resource benefits and resource health are difficult to predict in light of other biological and environmental factors beyond Agency's control. 3. For the regulation, and each alternative just described, enter the estimated total cost and overall cost-effectiveness ratio:
   Regulation: $ ____________________________________________________________
   Cost-effectiveness ratio: $ ________________________________________________
