

**TITLE 14. Fish and Game Commission
Notice of Proposed Changes in Regulations**

NOTICE IS HEREBY GIVEN that the Fish and Game Commission (Commission), pursuant to the authority vested by sections 200, 202, 203, 220, 332, 460, 1050, 1575, 3452, 3453, 4334, 4370, 4902 and 10502 of the Fish and Game Code and to implement, interpret or make specific sections 200, 202, 203, 203.1, 207, 332, 458, 459, 460, 713, 1050, 1575, 3452, 3453, 3950, 3951, 4334, 4370, 4902, 10500 and 10502 of said Code, proposes to amend Sections 360, 361, 362, 363, 364, and subsections 365(b) and 708.12(d), Title 14, California Code of Regulations, relating to Mammal Hunting 2012-2013.

Informative Digest/Policy Statement Overview

360(a)

Existing regulations provide for the number of license tags available for the A, B, C, and D Zones. This regulatory proposal changes the number of tags for all existing zones to a series of ranges presented in the following table. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Because severe winter conditions can have an adverse effect on herd recruitment and over-winter adult survival, final tag quotas may fall below the proposed range into the "Low Kill" alternative identified in the 2007 Environmental Document Regarding Deer Hunting.

Deer: § 360(a) A, B, C, and D Zone Hunts		
Tag Allocations		
Zone	Current	Proposed
A	65,000	30,000-65,000
B	35,000	35,000-65,000

D-17	500	100-800
D-19	1,500	500-2,000

360(b)

Existing regulations provide for the number of hunting tags for the X zones. The proposal changes the number of tags for all existing zones to a series of ranges presented in the following table. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Because severe winter conditions can have an adverse effect on herd recruitment and over-winter adult survival, final tag quotas may fall below the proposed range into the "Low Kill" alternative identified in the 2007 Environmental Document Regarding Deer Hunting..

X-10	400	100-600
X-12	860	100-1,200

360(c)

Existing regulations provide for the number of hunting tags in the Additional Hunts. The proposal changes the number of tags for all existing hunts to a series of ranges as indicated in the table below. The proposal provides a range of tag numbers for each hunt from which a final number will be determined, based on the post-winter status of each deer herd. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Due to this, the final recommended quotas may fall below the current proposed range into the "Low Kill" alternative identified in the 2007 Environmental Document Regarding Deer Hunting.

Existing regulations for Additional Hunts G-8 (Fort Hunter Liggett Antlerless Deer Hunt) and J-10 (Fort Hunter Liggett Apprentice Either-Sex Deer Hunt) provide for hunting to begin on October 1 and continue for two (2) consecutive days and reopen on October 8 and continue for three (3) consecutive days in order to accommodate for Base operations and other hunt opportunities. The proposal would modify the season to account for the annual calendar shift by changing the season opening dates to October 6 and October 13, respectively, in order to accommodate for Base operations.

360(d)

Existing regulations provide for the sale of up to ten (10) fund-raising license deer tags annually. The proposed changes are to reflect the repeal of Section 708 and its replacement by Sections 708.1 – 708.17, and the statutory modification of subsection 4332(e) to Section 3953, Fish and Game Code. Additionally, a change to reflect new contact information with the Departments Law Enforcement Division is proposed.

361

Existing regulations provide for the number of hunting tags for existing area-specific archery hunts. The proposal changes the number of tags for existing hunts to a series of ranges presented in the table below. These ranges are necessary, as the final number of tags cannot be determined until spring herd data are collected in March/April. Because severe winter conditions can have an adverse effect on herd recruitment and over-winter adult survival, final tag quotas may fall below the proposed range into the “Low Kill” alternative identified in the 2007 Environmental Document Regarding Deer Hunting..

The existing regulation provides for limited hunting of 27 Nelson bighorn rams in specified areas of the State. The proposed change is intended to remove the 'for 2011' column heading to continue the use of existing tag allocations. There is no recommendation to change existing tag allocations. The number of tags allocated for each of the nine hunt zones is based on the results of the Department's estimate of the bighorn sheep population in each zone.

This proposal simply removes the year reference (2011) from the table header in subsection (d).

363

Existing regulations provide for the number of pronghorn antelope hunting tags for each hunt zone. This proposed regulatory action would provide for tag allocation ranges for most hunt zones pending final tag quota determinations based on winter survey results that should be completed by March of 2012. The final tag quotas will provide for adequate hunting opportunities while allowing for a biologically appropriate harvest of bucks and does in specific populations. The proposed 2012 tag allocation ranges for the hunt zones are as set forth below.

Existing regulations specify elk license tag quotas for each hunt. In order to maintain hunting quality in accordance with management goals and objectives, it is periodically necessary to adjust quotas in response to dynamic environmental and biological conditions. This proposed amendment modifies elk tag numbers to ranges of tags to adjust for fluctuations in population numbers.

Periodic quota changes are necessary to maintain hunting quality in accordance with management goals and objectives.

365(b) and 708.12(d)

Existing subsection 365(b), Title 14, California Code of Regulations references a regulatory subsection that was recently renumbered. Existing regulation in 365(b) requires the Department to close the bear hunting season when the department determines that 1,700 bears have been taken pursuant to the reporting requirement in subsection 708(e). Subsection 708(e) was recently repealed by regulatory action and replaced with subsection 708.12(e). The proposed change will reference the new section to ensure that the bear season is properly closed.

Existing subsection 708.12(d), Title 14, California Code of Regulations requires that ONLY Department employees are authorized to validate bear tags and requires the tag be countersigned before transporting such bear except for the purpose of taking it to the nearest person authorized to countersign the license tag on the route being followed from the point where taken. The proposed clarification will allow a person to legally transport a bear with an unvalidated bear license tag when Department offices are closed.

NOTICE IS GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held at the Mission Inn, 3649 Mission Inn Ave, Riverside, California, on Wednesday, March 7, 2012, at 8:30 a.m., or as soon thereafter as the matter may be heard.

NOTICE IS ALSO GIVEN that any person interested may present statements, orally or in writing, relevant to this action at a hearing to be held in the Redwood Ballroom, Red Lion Hotel, 1929 4th Street, Eureka, California, on Wednesday, April 11, 2012, at 8:30 a.m., or as soon thereafter as the matter may be heard. It is requested, but not required, that written comments be submitted on or before April 11, 2012 at the address given below, or by fax at (916) 653-5040, or by e-mail to FGC@fgc.ca.gov. Written comments mailed, faxed or e-mailed to the Commission office, must be received before 5:00 p.m. on April 10, 2012. All comments must be received no later than April 11, 2012, at the hearing in Eureka, CA. If you would like copies of any modifications to this proposal, please include your name and mailing address.

The regulations as proposed in strikeout-underline format, as well as an initial statement of reasons, including environmental considerations and all information upon which the proposal is based (rulemaking file), are on file and available for public review from the agency representative, Sonke Mastrup, Executive Director, Fish and Game Commission, 1416 Ninth Street, Box 944209, Sacramento, California 94244-2090, phone (916) 653-4899. Please direct requests for the above mentioned documents and inquiries concerning the regulatory process to Sonke Mastrup or Jon Snellstrom at the preceding address or phone number.

Brad Burkholder, Department of Fish and Game, (916) 445-1829, has been designated to respond to questions on the substance of the proposed regulations. Copies of the Initial Statement of Reasons, including the regulatory language, may be obtained from the address above. Notice of the proposed action shall be posted on the Fish and Game Commission website at <http://www.fgc.ca.gov>.

Availability of Modified Text

If the regulations adopted by the Commission differ from but are sufficiently related to the action proposed, they will be available to the public for at least 15 days prior to the date of adoption. Circumstances beyond the control of the Commission (e.g., timing of Federal regulation adoption, timing of resource data collection, timelines do not allow, etc.) or changes made to be responsive to public recommendation and comments during the regulatory process may preclude full compliance with the 15-day comment period, and the Commission will exercise its powers under Section 202 of the Fish and Game Code. Regulations adopted pursuant to this section are not subject to the time periods for adoption, amendment or repeal of regulations prescribed in Sections 11343.4, 11346.4 and 11346.8 of the Government Code. Any person interested may obtain a copy of said regulations prior to the date of adoption by contacting the agency representative named herein.

If the regulatory proposal is adopted, the final statement of reasons may be obtained from the address above when it has been received from the agency program staff.

Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Businesses, Including the Ability of California Businessmen to Compete with Businesses in Other States.

360(a) - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action adjusts tag quotas for existing hunts. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

360(b) - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action adjusts tag quotas for existing hunts. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

360(c) - The proposed action will not have a significant statewide adverse economic impact directly

affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action would adjust tag quotas for existing hunts and modify season dates for two hunts. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

360(d) - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action reflects editorial changes to eliminate inconsistencies between regulation and Fish and Game Code. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

361 - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed action adjusts tag quotas for existing hunts. Given the number of tags available and the area over which they are distributed, these proposals are economically neutral to business.

362 - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed changes allow for the continued hunting of nelson bighorn sheep, there are no changes in the number of tags issued from previous years, so this proposal is economically neutral.

363 - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. Considering the small number of tags issued over the entire state, this proposal is economically neutral to business.

364 - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. Considering the small number of tags issued over the entire state, this proposal is economically neutral to business.

365(b) and 708.12(d) - The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. This regulation change is ministerial and is simply required to reflect recent changes to referenced subsections.
