

## **TITLE 14. Fish and Game Commission Notice of Proposed Changes in Regulations**

**NOTICE IS HEREBY GIVEN** that the Fish and Game Commission (Commission), pursuant to the authority vested by Sections 7078, 7701, 7708, 8026, 8425 and 8429.5 of the Fish and Game Code and to implement, interpret or make specific Sections 7701, 7708, 8026, 8425, 8429.5, 8429.7, 12159 and 12160 of said Code, proposes to amend Section 149 and Appendix A, Title 14, California Code of Regulations, relating to market squid logbooks.

### **Informative Digest/Policy Statement Overview**

The Market Squid Fishery Management Plan (MSFMP) was developed under the provisions set forth by the Marine Life Management Act (MLMA) and sets goals and objectives to govern the conservation, sustainable use, and restoration of the market squid resource. Section 149, Title 14, California Code of Regulations (CCR), governs commercial market squid fishing activities off California, pursuant to the MSFMP.

Current regulations prescribe the use of logbooks for the collection of fishing data. Market Squid Vessel Logbook (DFG 149a) and Market Squid Light/Brail Boat Logbook (DFG 149b) are proposed to be updated to bring these forms into compliance with the standards set by the Department of Fish and Wildlife's (Department) Forms Management Coordinator, improve instructions that explain how the logs are to be filled out, and improve the quality of data that are received by the Department. Updated instructions will accompany the forms. The forms and instructions will be inserted as part of CCR, Title 14, Appendix A, and the old forms (DFG 149a (9/01) and DFG 149b (10/05)) will be deleted.

The follow changes are proposed:

- Subsection 149(e) is proposed to be amended to refer to the revised forms entitled with an updated version number "Market Squid Vessel Logbook – DFW 149a (Rev. 05/01/15)", and "Market Squid Light/Brail Boat Logbook – DFW 149b (Rev. 05/01/15)."
- Additional changes are also proposed to improve the organization, clarity and consistency of the regulations.

### **Benefits of the Regulations**

The proposed regulatory action will benefit fishermen, processors, the State's economy, and the environment by maintaining a healthy and sustainable market squid fishery.

## Consistency with State Regulations

The proposed regulations are neither inconsistent nor incompatible with existing State regulations. Commission staff has searched the California Code of Regulations and statutes and has found no other State regulations related to the take of market squid and no other State agency with authority to promulgate commercial squid fishing regulations.

## **Impact of Regulatory Action/Results of the Economic Impact Analysis**

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

- (a) Significant Statewide Adverse Economic Impact Directly Affecting Business, Including the Ability of California Businesses to Compete with Businesses in Other States:

The proposed action will not have a significant statewide adverse economic impact directly affecting business, including the ability of California businesses to compete with businesses in other states. The proposed regulations continue to allow all actively permitted market squid vessels (vessel, light, and brail) to participate in a directed fishery for market squid during the commercial market squid season until the season closes. The proposed regulations update the logbooks currently in use by commercial squid fishermen. These changes are not expected to increase the time spent to complete the log.

- (b) Impact on the Creation or Elimination of Jobs Within the State, the Creation of New Businesses or the Elimination of Existing Businesses, or the Expansion of Businesses in California; Benefits of the Regulation to the Health and Welfare of California Residents, Worker Safety, and the State's Environment:

The Commission does not anticipate any impacts on the creation or elimination of jobs, the creation of new businesses or the elimination of existing businesses, or the expansion of businesses in California.

The Commission does not anticipate any benefits to the health and welfare of California residents or worker safety.

The Commission anticipates benefits to the environment in the sustainable management of a healthy squid resource.

- (c) Cost Impacts on a Representative Private Person or Business:

The Commission is not aware of any cost impacts that a representative private person or business would necessarily incur in reasonable compliance with the proposed action.

- (d) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State: None.

- (e) Nondiscretionary Costs/Savings to Local Agencies: None.

- (f) Programs Mandated on Local Agencies or School Districts: None.
- (g) Costs Imposed on any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code: None.
- (h) Effect on Housing Costs: None.

Effect on Small Business

It has been determined that the adoption of these regulations may affect small business. The Commission has drafted the regulations in Plain English pursuant to Government Code Sections 11342.580 and 11346.2(a)(1).

Consideration of Alternatives

The Commission must determine that no reasonable alternative considered by the Commission, or that has otherwise been identified and brought to the attention of the Commission, would be more effective in carrying out the purpose for which the action is proposed, would be as effective and less burdensome to affected private persons than the proposed action, or would be more cost effective to affected private persons and equally effective in implementing the statutory policy or other provision of law.
