Amend subsections (a) and (b) of Section 27.20, Title 14, CCR, as follows:

§ 27.20. Groundfish Management Areas, Seasons, Depths, Exceptions, and Fishery Closure/Rule Change Process Described.

Regulations that follow in sections 27.25 through 27.50 define fishing seasons and depth constraints that are effective within each Groundfish Management Area. These sections apply to take and possession of federally-managed groundfish species as defined in Section 1.91 and California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*, which are state-managed species known to associate with federal groundfish.

(a) Depth Constraints: A depth constraint means that during the open season, the aforementioned species may ~~only~~not be taken or possessed in water depths ~~shallower~~deeper than the specified depth. Two specific definitions of “depth” apply off California. In waters shallower than 30 fathoms, “depth” is defined by general depth contour lines. In waters equal to or deeper than 30 fathoms, “depth” is defined by approximating a particular depth contour by connecting the appropriate set of waypoints adopted in Federal regulations (50 CFR Part 660, Subpart C).

(b) General Provisions.

(1) Take and Possession: During any open season in any Groundfish Management Area, in waters deeper than where fishing is authorized or within special closure areas established within a Groundfish Management Area, it is unlawful to take or possess the aforementioned species except as provided in subsections (b)(1)(A) through (b)(1)(D) below and sections 27.25 through 27.50 of these regulations.

(A) Transit: The aforementioned species may be possessed aboard a vessel in transit through a closed area with no fishing gear deployed in the water.

(B) “Other Flatfish” as defined in subsection 1.91(a)(10), petrale sole, and starry flounder may be taken or possessed in all depths year-round.

(C) Shore Based Angling: When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore), all species may be taken or possessed year-round (See 27.50(b)(1) for exceptions in the Cowcod Conservation Areas). No vessel or watercraft (motorized or non-motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(D) Diving or Spearfishing: When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed year-round (See 27.50(b)(2) for exceptions in the Cowcod Conservation Areas). When boat-based groundfish fishing is closed, all types of fishing gear, except spearfishing gear, are prohibited to be aboard the vessel or watercraft (motorized or non-motorized) while spearfishing for the purpose of taking or possessing these species under this provision.
