IMPORTANT INSTRUCTIONS

General

1. Complete a separate fishing activity section for each day traps are pulled, this includes multi-day trips. If more than 5 locations were fished in one day, continue recording fishing information in the next section and enter the same date in the date box. For multi-day trips or received catch, record the landing receipt number(s) for the entire load on the last day traps were pulled.
2. If multiple permittees are aboard the vessel, only one logbook entry should be submitted for that day's fishing. If the fisherman or vessel I.D. number changes before the 3 fishing activity sections are completed, proceed to the following page and record new I.D. information.
3. Return the completed top copies to the Department on or before the 10th of the following month (MFSU, 330 Golden Shore, Suite 50, Long Beach, CA 90802). Voided logs must also be submitted. Notification is not needed for months not fished. Do not fold or staple these forms.
4. The duplicate copy is the property of the permittee and it remains in the book as your permanent fishing record.
5. All logbook and/or envelope requests will be processed through the Long Beach office. Please use the reorder form printed on the front flap of this logbook and submit with monthly logs.

Specific

1. Please print all characters in ink (no pencil) using CAPITAL letters only. Print each character entirely within the boxes that are provided.
2. The current log format cannot accommodate ranges in depth, block numbers, nights in water, etc. Please record information as described in the *DEFINITIONS* section below.
3. For those cases where mechanical failure, major storm events, etc. precludes trap tending in compliance with Fish and Game regulations, record exact nights soaked with explanation in the note pad area.
